

Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: November 10, 2007

Water Body Under Evaluation:

Water Body ID #: 0320
Name: Dick's Creek (Class C)
Length of Segment: 7.0 miles
County(ies): Platte

Use Attainability Analysis (UAA) Study:

UAA ID #: 0077
Submitter: BWR
Date(s) Conducted: May 24, 2007
Date Received: June 1, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in May 2007 and no WBCR was observed. No interviews were conducted in 2007. However, one interview conducted during the 2006 UAA revealed existing secondary contact use at Site 757 (fishing).

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The stream did not meet the depth criteria at any of the 4 sites evaluated. As a result, data in this UAA supports the 2005 Water Quality Standards where the WBCR use was not assigned. However, due to an interview in 2006 that reports fishing, Secondary Contact Recreation is recommended to be assigned.

Committee Recommendation:

- ☐ Add Use
- ☐ Retain Use
- ☒ Remove Use
- ☐ Modify Use
- ☐ Inconclusive
